Profile

I am a Junior Software Developer with a background as a tennis player, which has shaped my strong sense of discipline, teamwork and resilience. Over the past 3 years, I have built a strong programming foundation through peer-to-peer, project-based learning methods. I started with basic concepts in **C**, then progressed to **C++** and **Python** for more advanced programming. I further expanded my skill set with **JavaScript** and **TypeScript** for web development, alongside **HTML**, **CSS**, and **Tailwind**. Additionally, I gained hands-on experience with **Virtual Machines** and **Docker** for efficient development and deployment.

Driven by curiosity and attention to detail, I am looking for a starting position in software development, while continuously studying to broaden my knowledge and improve my existing skills.

Education

- | | |
|------------------|---|
| 2022–2025 | Core Curriculum, 42 Berlin (Berlin, Germany)
42 provides an immersive programming education that emphasizes hard and soft skills, covering C and C++ programming , data structures , and network architecture through project-based learning. |

- All-ODAC First Team at #1 Singles (E&H)

Summer 2016-2017 Tennis Coach, Piatti Tennis Center, Italy

- Coaching at the academy for athletes of all ages
 - Arrange lesson plans for different levels
 - Accompany junior players at international tournaments
-

Projects at 42 Berlin

These are the major group projects I have developed while attending 42 Berlin:

Written in C

- **Minishell** - Recreated basic shell functionality based on Bash ([minishell](#))
- **Cub3D** - Created a 3D maze game using ray casting, inspired by the Wolf3D game ([cub3D](#))

Written in C/C++

- **Webserv** - Built a simple HTTP server with CGI functionality ([webserver](#))

Written in TypeScript, HTML, Tailwind

- **Transcendence** - Created a complete Single Page Application pong (game) website where users could play and interact with each other ([ft_transcendence-ping-pong-website](#))
-

Languages

- Italian, English (C1)
 - Spanish, French (B2)
 - German (A1 - I am currently taking German classes at co-speaking berlin)
 - Latin and Ancient Greek (Reading and translation proficiency; able to comprehend and interpret classical texts)
-

Interests

I am actively studying **Kotlin** and developing my first Android App. Outside of tech, I enjoy taking on new challenges. I keep playing tennis in my spare time; currently, I am part of the 1st Ladies Team at Zehlendorfer Wespen (competing in the II Bundesliga Nord).
